

REQUEST FOR PROPOSAL (RFP)

Hospital Information Management System (HIMS) Modernization

Procuring Authority: Ministry of Health, Nutrition & Indigenous Medicine, Colombo, Sri Lanka

Tender Reference: MOH-HIMS-2026-089

Issue Date: 15 September 2026

Submission Deadline: 31 October 2026, 14:00 LK Time

Estimated Budget: LKR 450,000,000 (Four Hundred and Fifty Million Sri Lankan Rupees)

1.0 EXECUTIVE SUMMARY & PROJECT SCOPE

The Ministry of Health invites eligible technology partners to submit proposals for the design, development, deployment, and 3-year managed support of a modern, cloud-native Hospital Information Management System (HIMS). The platform will unify 9 provincial general hospitals, automating patient intake, EHR/EMR, clinical labs, pharmacy inventory, OPD/IPD scheduling, and national reporting metrics.

2.0 FUNCTIONAL REQUIREMENTS

REQ-001 [Mandatory]: Patient Master Index (EMPI)

The solution must provide a biometric and National Identity Card (NIC) linked Patient Master Index capable of deduplicating records across all 9 regional teaching hospitals with sub-second lookups.

REQ-002 [Mandatory]: Electronic Health Records (EHR) & Clinical Notes

Support HL7/FHIR release 4 interoperability standards. Must include clinical doctor workstation interfaces, voice-to-text dictation support, automated ICD-10 diagnostic coding, and allergy alerts.

REQ-003 [Mandatory]: Pharmacy & Stock Inventory Control

Real-time tracking of pharmaceutical inventory, batch expiry management, central medical supplies division (MSD) re-order integrations, and computerized physician order entry (CPOE) to prevent adverse drug interactions.

REQ-004 [Mandatory]: Laboratory Information System (LIS) Integration

Bidirectional interface with standard laboratory diagnostic analyzers (ASTM and HL7 protocols), barcoded sample tracking, automated report release, and SMS dispatch to outpatients.

3.0 ARCHITECTURE, SECURITY & COMPLIANCE

REQ-005 [Mandatory]: High Availability & Disaster Recovery

The platform must guarantee 99.95% system uptime with Recovery Point Objective (RPO) < 5 minutes and Recovery Time Objective (RTO) < 30 minutes, supported by redundant multi-zone hosting within the Sri Lanka Government Cloud (LGC 2.0).

REQ-006 [Mandatory]: Information Security & ISO/IEC 27001 Compliance

The bidding vendor must be ISO 27001:2022 certified. All data in transit must enforce TLS 1.3 encryption, and data at rest must use AES-256 with hardware security module (HSM) managed cryptographic keys.

REQ-007 [Mandatory]: Role-Based Access Control (RBAC) & Audit Logging

Fine-grained permission controls mapped to medical hierarchy (Consultant, Medical Officer, Nursing Sister, Pharmacist, Billing Clerk). Immutable tamper-proof audit trail for every patient record access.

REQ-008 [Deliverables]: Implementation Methodology & SLA

Deployment must follow agile phases over 12 months with 24x7 Tier-1/Tier-2/Tier-3 localized SLA support based in Colombo, Sri Lanka.
